

Slovenian Textile Technology Platform 2006

September 28, 2006

I was invited by **Predilnica Litija** to exhibit my **3D collection** Opening of the Papaver Rhoëas on **3th Conference of Slovenian Textile Technology Platform**. The platform was held in Ljubljana and organized by **IRSPIN**.

Predilnica Litija is a producer of special yarns and threads from natural and artificial fibres blends. By means of a new, modern technology, Predilnica produces variegated programme of yarns by customers' desires for decorative and technical textiles as well as textiles for the latest fashion. Predilnica produces more than 5,000 tons of yarns and threads annually. It sells its product mostly in the member states of the European Union, but also in Turkey, China, South America and Russia. Our own development of products, in which we continuously build-in new, innovative fibres, has enabled the company to breakthrough to the very top of the European textile industry.

The company invests more than 12 % of its annual income into research, development and new technologies.

IRSPIN is technological center of Slovenian yarn industry, established by textile company's with goal of connecting company's with different products, technology's, educations and development of exchanging and transferring knowledge from educational institutions to company's and between them.

Jana Rot was born in Kranj, Slovenia. She has started her fashion design career around 1999 and since then she has been involved in various exhibitions, fashion shows and international fashion and industrial design competitions. During her study at University of Ljubljana, department of fashion and textile design, she has been active in researching new ways of creative presentations and thinking regarding fashion and textile design. She has graduated in 2005 under the mentor doc. Marjeta Godler.
